Wiesbaden, Germany

## **International Conference on Avian, Herpetological and Exotic Mammal Medicine” (ICARE)**

Dear Colleagues and Friends,

It is with regret that the ICARE Steering Committee - formed by representatives of the European Association of Avian Veterinarians (EAAV), the Association of Exotic Mammal Veterinarians (AEMV), the Association of Reptilian and Amphibian Veterinarians (ARAV), and the European College of Zoological Medicine (ECZM) in

conjunction with the Local Organising Committee, has taken the very difficult decision to postpone the 2021 ICARE Conference in Budapest.

**The 5<sup>th</sup> International Conference on Avian, Herpetological and Exotic Mammal Medicine will now be held in Budapest in the Spring of 2022 with the precise dates to be confirmed soon.**

We appreciate this will be disappointing news for delegates, exhibitors and speakers but our decision was made due to the current uncertainty of the continuing effects of the worldwide COVID-19 pandemic. Whilst this event is an essential platform for like-minded veterinary professionals to meet, learn, develop and network, the health and safety of everyone involved in the conference is of paramount importance. Please be assured we are committed to continue delivering ICARE and we are looking forward to bringing you the same exciting and innovative meeting, albeit one year later.

Please contact the Local Organising Committee ([golob@congressline.hu](mailto:golob@congressline.hu)) for further information about abstract submissions, sponsorship, and any other questions you may have.
